2024-2025

University of Connecticut Concrete Canoe Association Sponsor Packet

About Us

The University of Connecticut Concrete Canoe Association is a student organization dedicated to building a concrete canoe and participating in a nationwide competition each year. We go through the entire engineering process--from initial design and testing to final construction--before submitting a design paper, presenting to panel of judges, and racing against other teams at the annual ASCE Northeastern Student Symposium.

Our Mission

The University of Connecticut Concrete Canoe Association challenges engineering students to apply civil engineering principles in the design, construction, and racing of a canoe made entirely of concrete.

Other objectives include:

- Increasing general awareness of concrete technology and its innovative applications.
- Providing a platform for students to apply and expand their engineering knowledge in a practical, hands-on environment.
- Fostering the professional development of aspiring civil engineers, preparing them for successful careers in the industry.

UConn recently took 4th overall at the 2024 ASCE Northeastern Student Symposium.

Previous Results

Founded in 2013, UConn Concrete Canoe been making waves ever since! Here are some of our past accomplishments:

- from 2013 to 2017, UConn climbed from 14th to 10th to 8th.
- the [4430 Express](#) placed 4th at the 2017 ASCE Northeast Regional.
- from 2018 to 2019, the [Dairy Fairy](#) and [Graveyacht](#) were named 2nd overall at competition.
- the [Kaiju Kanoe](#) terrorized the competition, winning 1st place in 2021.
- the [Concrete Crustacean](#) swam to 4th overall at the 2024 Northeastern Student Symposium.

Support Us

Your support is crucial in helping our team innovate, compete, and succeed. Monetary contributions and material donations are greatly appreciated.

Examples of in-kind donations:

- 2x4" concrete testing cylinders
- Cementitious materials, aggregates, admixtures, pigment dyes, K1
- PPE (N95 masks, latex gloves)
- High Density foam or plywood

All donations are 100% tax deductible and will go to team expenses. Continue reading on the next page for more information.

Why Contribute?

- Enable team members to gain invaluable hands-on experience
- Help cover essential costs such as materials, tools, and competition fees.
- Logo visibility and brand exposure to undergraduates on campus and at competition.
- Recognition on our team website, social media, and apparel.
- All donations are tax deductible.

Expenses*

Concrete Material Supplies	\$300
Paddles & Life Vests	\$200
Mold (Lump Sum Cost)	\$200
Testing Equipment	\$20
Display Materials	\$200
Printing	\$18
Shipping	\$782
Transportation Costs	\$350
Competition Accommodations	\$1500

*Estimated cost based on 2023-2024 Season
